Now there's a sharp-looking addition to the range that's ready to welcome a new generation of riders into R/World. Fast, agile and handsome, the R7 offers sports performance with everyday fun. The lively 689cc CP2 engine with A&S clutch provides torque-rich acceleration for a truly exciting riding experience on the track and road. The super narrow and aerodynamic bodywork features an aggressive twin-eye face with a powerful central LED headlight – and the sharp tail and deeply sculpted tank are shaped by pure R-Series DNA. The R7's high specification brakes and suspension give optimum controllability when cornering and braking. The frontal area of the R7 is the smallest of the R-Series models, and ensures the highest levels of aerodynamic efficiency – while clip-on handlebars, rear sets and a bump-stop seat give you an adaptable and sporty riding position. This outstanding next generation Supersport makes R/World a reality for thrill-seeking riders like you – whether you're riding on the track or out on the road.
